

Midtown Reston Lofts

Reston, Virginia

Corridor

Living Room

Art Studio

This Kettler Community introduces a luxury loft life -style in the heart of downtown Reston. With a focus on the art and art community at Reston, residents will experience open living plans and European-style cabinetry and appointments. For a limited few residences there is a private entrance with elevator access.

On arrival, the resident experiences the loft life style with a rich mix of stone and metal finishes, modern furnishings and a focus on art appointments. The residential corridors combine loft elements: a metal-mesh eyebrow at the unit entry, exposed wood beams and CMU block. At the dedicated community floor, residents gather in the media room with views of Reston, share in the art center and work out in a fitness center overlooking the roof top terrace. The art work focus includes local Reston artists.
